

Since through emails it's not easy to understand the mood, please feel free to express yourselves so as to make me understand not only what you think, but also what you feel.

***Hi Lucy! How are you? Where are you at the moment and what are you doing?***

Hey There! We are doing great and just got back into Los Angeles. EVOLOVE has been on the road the last 2 months on The Breaking Heartstrings Tour with Stitched Up Heart and then the Reinforcement Tour which included Gemini Syndrome. All of our bands are Los Angeles based and we already knew each other, so it was quite an amazing adventure and we made many lifelong friends along the way!

***Are you ready for this interview? Well, let's get started! What's behind the name "Evolove"? What does it mean?***

I love Palindromes. When searching for a new band name the first word that popped into my head was LOVE. The word, "Evolove", in our definition would be defined as "the evolution of love". Music comes from love so the name suits us well. We love making music together.

***You are a very young band; where did you meet each other and when did you come to the decision to become a band?***

Billy and I were in a couple other bands together before this. We had some regional success with both bands. The last project we were in started evolving from a super pop band to an edgier sounds and after losing a couple members we felt it was time for a drastic change. We began a search to find new band mates through a website called Craigslist.com. It took a little time to find the right people but we were very fortunate to meet Dave and Colby. Both of them are great songwriters who right away understood where Billy and I were coming from. It is very rare to find a band in which all members contribute to songwriting.

***Where are you from? Does your birthplace influence your music? Which are the artists you grew up with?***

We are all from different places Billy is originally from Cincinnati, Ohio but was raised in Los Angeles, CA. Dave is originally from Norton, Massachusetts and came to Los Angeles many years ago to pursue music. Colby is from Santa Cruz, California and also moved to Los Angeles just a year before joining our band to follow his musical path. I'm the only member that was not born in this country. I was born in Antwerp, Belgium but my family moved to Los Angeles when I was a baby. I was raised in Palm Springs, CA but moved to Los Angeles to go to college and along the way found my calling to music.

It is probably safe to say that everyone was influenced by where they grew up, but it would be hard for me to pinpoint exactly how. I grew up listening to bands/artists like U2, Red Hot Chili Peppers, No Doubt, Pearl Jam, Tori Amos, and Alanis Morissette to name just a handful. Today I love bands like Rise Against, Paramore, My Chemical Romance, 30 Seconds to Mars....too many to write down to be honest. The guy's tastes range a lot as well. Billy and I listen to a lot of the same music, I guess it's our similar tastes in music that have kept us writing together the last 8 years. Dave and Colby listen to a lot of heavier/ hardcore like Pierce the Veil, We came as Romans, Underoath, and The Devil wears Prada.

***When you were children, what did you answer when you were asked questions like "what do you want to do when you grow up?" Have you ever thought, back then, that you would start a career in music?***

I can only really answer for myself but I am pretty sure all of us always knew our calling to music even if we didn't know EXACTLY what we wanted to do. I've been writing songs since I can remember..... I just didn't know that what I was doing could actually be a job.
